General Information

General Information

About Richland County

The County is located in the center of South Carolina and covers a total area of 756 square miles. The County surrounds the state capital city of Columbia, which is also the County seat. Established in 1785, the County has grown to become home to just over 334,000 residents, and represents a thriving business, industrial, governmental, and educational center. The County employs approximately 1765 people and operates a general fund budget in excess of \$100 million dollars.

Ranked consistently as one of the fastest growing areas in the State, Richland County and Columbia possess a virtually recession-proof economy. This is due to the presence of the seats of State and County government, the University of South Carolina, 7 additional institutions of higher education, and Fort Jackson (the nation's largest and most active initial entry Army training base). Other positive attributes of the area include the new 142,500 sq. ft. Columbia Metropolitan Convention Center, Riverbanks Zoo & Botanical Gardens (twice awarded the Governor's Cup for the most outstanding tourist attraction in South Carolina), the Richland County Public Library (ranked 8th national among urban libraries serving a population of 250,000 – 499,999) and the Colonial Center (the largest arena in the state of South Carolina at 18,000 seats and the 10th largest on campus basketball facility in the nation).

Approximately 65% of the land within the County is categorized as forest, 15% as urban, and the remaining 20% falls into the wetlands agriculture water, range land and barren categories. The average maximum temperature is 75.4 degrees Fahrenheit, the average minimum temperature is 51.4 degrees Fahrenheit, and the average annual precipitation is 48.5 inches.

The County is governed by an 11-member council, which in turn appoints an Administrator to handle daily operations and to provide professional expertise in government management. Under state law, the County is the primary governmental unit for the administration of law enforcement, justice, health, education, taxation, social service, library service, agricultural service, and the maintenance of public records.

Offeror shall be paid the actual written approved costs incurred during the performance hereunder to the time specified in said notice, not previously reimbursed by County to the extent such costs are actual, necessary, reasonable, and verifiable costs and have been incurred by Offeror prior to and in connection with discontinuing the work hereunder. Therefore, the Offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary mails. However, the County will evaluate an offer that proposes delivery based on the Offeror's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date; the offer will be considered nonresponsive and rejected.

If the Offeror is unable to meet the desired delivery schedule, it may, without prejudicing evaluation of its offer, propose a delivery schedule. However, the Offeror's

proposed delivery schedule must not extend the delivery period beyond the time for delivery in the County's required delivery schedule as follows:

Offers that propose delivery of a quantity under such terms or condition that delivery will not clearly fall within the applicable required delivery period specified, will be considered nonresponsive and rejected. If the Offeror proposes no other delivery schedule, the desired delivery schedule will apply.
